Work Experience

Prosper IT Consulting *Software Developer Internship - Portland, OR* September 2020
Python/Django

Developed a tour(Central Africa Republic) web application using Python and Django. Utilized Agile/Scrum fundamentals including daily stand ups, sprint planning and code retrospectives.

- Created a database to store any information entered by the tourist.
- Integrated an API to pull travelling information when a user searched for a flight ticket to go to CAR.
- Utilized Beautiful Soup to scrape location selected by user.
- Front-end designed with Bootstrap 4 as well as custom HTML and CSS.
- Developed separate views for database CRUD functionality, as well as a view for data scraped using Beautiful soup.
- Used Azure Devops for version control, and Slack for communicating with the scrum team.

C#/.NET

Portland Theatre using C#, ASP.NET MVC to fix the application and add more features to it.

- Created a table that can store new members or new subscribers that join the theatre membership. Used Bootstrap, C# and MVC
- Allowing the Admin to delete members from membership databases. Used ASP.NET, Javascripts
- Used Azure Devops for version control, and Slack for communicating with the team
